

**EurosignDS** is a digital signage solution designed for the everyday user. It requires no special knowledge and the user can quickly create, schedule and play professional content on any third party screens.

***EurosignDS Players** are turn key appliances which combine with **DS Composer** software to provide a cost effective signage solution that's intuitive to use. **DS Composer** is pre-installed on the player affording a stand alone signage solution. A networked solution is deployed by installing **DS Network Composer** on a client PC. **DS Network Composer** automatically finds connected DS players, completing the network setup. Larger networks can be deployed using **DS Content Manager**.*
