# DS Composer

Eurosign DS software is designed for the everyday user. It requires no special knowledge and the user can quickly create, schedule and play professional content on any third party screens.

Eurosign DS Composer is an intuitive project environment with easy-to-use content modules. DS Composer can be pre installed on a DS Player affording a stand alone signage solution. A networked solution is deployed by installing DS Network Composer on a client PC. DS Network Composer automatically finds connected DS players, completing the network setup.

- ➢ Wide range of content modules
- ➢ Simple drag and drop layout tools
- ➢ Background templates
- ➢ Practically any multimedia content
- ➢ Preview projects before sending to player

EurosignDS composer features projects with an intuitive screen canvas layout and a toolkit of content modules. Content is displayed in zones which are easily sized and located.

The **Multimedia Module** allows a sequence of content to be displayed in a screen zone with flexible timing and editing tools. Use any content from pictures to HD video, flash or HTML
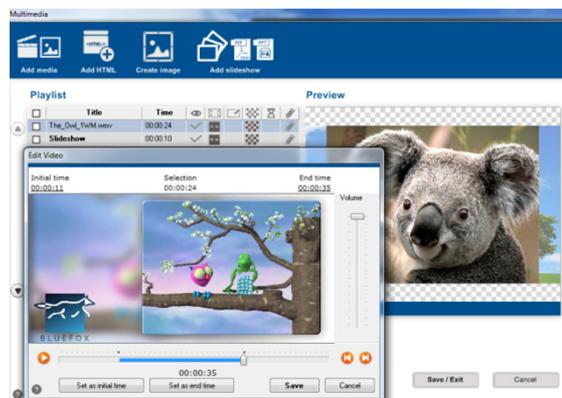

There are ready-to-go modules for displaying **time**, **date** and **weather** in your chosen format. Configurable modules can be used to display **IP Camera** feeds, **TV/Video**, **Slide Shows**, **Price Lists** or text with background image (**Text Box**)

Websites (**HTML Source**) can be displayed with assignable pan and zoom to show a selected area of a web page.
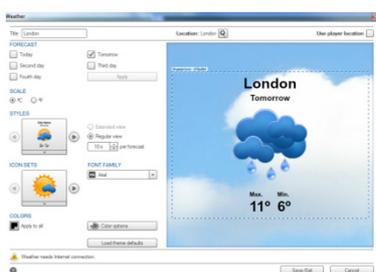

**Menu & Table Modules**
Used for any tabular listings such as timetables
